

Royal Thai Embassy's Announcement
Subject: Stickerless e-Visa

The Royal Thai Embassy in Oslo wishes to announce that the Embassy is in the process of implementing “Stickerless e-Visa” from 27 September 2021 onwards.

The new “Stickerless e-Visa” service will help facilitate the visa applicants to get the visas without making appointments for submitting their passports and related documents to the Embassy. It will allow visa applicants to apply for and get a visa via online platform without attaching a visa sticker in the passport.

Once the visa is approved by the Embassy, the notification letter will be automatically sent to the visa applicant by the system. Therefore, the applicants are advised to print out the said letter and present it to the Thai immigration officer upon arrival at the immigration check point in Thailand.

Date and Time	Procedures
15 September 2021	Last day to receive e-Visa application with visa sticker via the Thailand e-Visa System
18-22 September 2021	The Embassy can approve visa application and issue visa with visa sticker to applicants
23-26 September 2021	e-Visa system will temporarily close for system updates
27 September 2021	Full operation of Thailand e-Visa Stickerless system
