

Announcement of the Royal Thai Embassy, Vientiane

No. 16/2569

Re: Introduction of the E-Legalization System

The Royal Thai Embassy, Vientiane wishes to announce that the Royal Thai Embassy will introduce the new **e-Legalization system** for the legalization of documents, replacing the current system using an official seal and handwritten signature.

Under the new system, a security sticker will be affixed to the legalized document. The sticker will bear the following security features:

1. Electronic signature (e-signature) of the authorized officer, printed directly on the sticker;
2. Hologram of the Embassy/Consulate-General, incorporating security features designed to prevent forgery and unauthorized alteration; and
3. QR code, enabling applicants and relevant authorities to conveniently verify the authenticity of the legalization.

The new security sticker is designed to be tamper-evident and difficult to remove without damaging the document, thereby providing an additional safeguard against forgery and unauthorized alteration.

In this regard, the Royal Thai Embassy/Consulate-General has further the honour to inform the Ministry that the new e-Legalization system will be implemented with effect **from 25 September 2026**.

Royal Thai Embassy,
Vientiane

25 September B.E. 2569 (2026)
