Thailand Board of Investment (BOI)

BOI

The Office of the Board of Investment is a government agency under the Office of the Prime Minister. Its core roles and responsibilities are to promote valuable investment, both investment into Thailand and Thai overseas investment.

BOI's Vision

The new investment promotion strategy (2023-2027) sets out to promote investment to restructure the country's economy. To promote valuable investment to restructure Thailand's economy into new economy by achieving 3 aspects consisting of:

- 1) Innovative: Being an economy that is driven by technology, innovation and creativity.
- 2) Competitive: Being an economy that is competitive, adaptive and generate high growth.
- 3) Inclusive: Being an economy that values environmental and social sustainability, creates opportunity and reduces inequality.

Investment Promotion Policies

In order to achieve the vision, the Board of Investment has set 7 pillars of investment promotion as follows:

- 1) The upgrade of existing industries, in parallel with the building of new industries in which Thailand has a high potential, and an overall strengthening of the supply chain
- 2) The acceleration of the industrial transition to green and smart industries through investments in automation, digital adoption and decarbonization
- 3) The promotion of Thailand as a business center, and an international trade and investment gateway for the region
- 4) The strengthening of SMEs and startups, ensuring they are connected to the global market and supply chain
- 5) The promotion of investments in the different regions of Thailand that fits the potential of each area and enables inclusive growth
- 6) The promotion of investments that will promote community and society development
- 7) The promotion of Thailand's overseas investment to expand business opportunities for Thai companies

The Third Country Training Program on “Workshop on Investment Promotion Policy and Enhancing Industrial Competitiveness for Mekong and South Asian Countries” is conducted by the Government of Thailand and the Government of Japan as part of their Technical Cooperation Scheme.

The course arrangements are set up by Thailand International Cooperation Agency (TICA), Ministry of Foreign Affairs, and Japan International Cooperation Agency (JICA) in collaboration with Thailand Board of Investment (BOI), Office of the Prime Minister.

Background

With the realization of the ASEAN Economic Community (AEC) in 2015, the promotion of Foreign Direct Investment (FDI) is one of the most prioritized challenges of the Mekong countries in order to maintain sustainable economic growth in light of strong competition. Mitigating the development gap among ASEAN member states is also an important obligation of Thailand. Having achieved remarkable economic growth through the successful implementation of an FDI promotion policy, Thailand is the best resource country to contribute in this regard.

During the Japanese fiscal years 2017-2019, JICA, TICA, and BOI successfully organized two workshops on investment promotion for Mekong countries (CLMV). The workshops received a great deal of interests from government organizations of the CLMV. As the Thai investment in South Asian region has been rapidly increasing over the past few years, BOI would like to include the South Asian Countries in this course. Besides, BOI has also received requests from these countries to organize an investment promotion training program so that they can learn about the Investment Promotion Agency’s roles in promoting and facilitating manufacturing FDI, as well as the linkage formation with local supporting industries. In addition, they will be able to explore possible policies and measures to be reflected in their IPA.

As a result, JICA, TICA and BOI agreed to organize two more workshops in order to continue to contribute to the economic and industrial promotion and the development in the Mekong countries.

Title

Workshop on Investment Promotion Policy and Enhancing Industrial Competitiveness for Mekong and South Asian Countries
