ONGC decides to invest over Rs. 10,600 Crore in two major projects to enhance production

Board of ONGC, has approved today two major investment decisions valued over Rs. 10,600 Crore from its Western Offshore fields. The projects are- Redevelopment (Phase-III) of its capital investment of Rs 6,069 Crore and Integrated Development of Mukta, Bas Rs. 4,620 Crore.

1. Redevelopment of the Mumbai High (South) - Phase III

The implementation of the project will lead to incremental gain of 7.547 million (BCM) gas by 2030. This project is designed to carry forward the success of the project and give a new lease of life to the giant field.

The Project comprises of drilling 36 new Wells and 34 sidetrack Wells, and facilities for wells on existing platforms, associated pipelines and modifications scheduled to be installed by April, 2017. Drilling of Wells and the overall project cost is estimated at Rs. 4,620 Crore.

The Project aims to further develop of L-II, S1 and Basal Clastic reservoirs along with new gas inputs.

2. Integrated Development of Mukta, Bassein and Panna Formations

This Project located at a water depth of 50-70m and about 80-90 Km from Mumbai. It involves previous two phases of redevelopment through installation of booster compressors to increase pressure from 105 Kg/cm² and in 2007 to boost pressure from 25 to 60 kg/cm². In order to further increase production, the project envisages increasing gas pressure from 10 to 27 Kg/cm².

The incremental production is expected to start in 2014-15 with peak incremental oil and about 1100 cubic meters of condensate per day by 2017-18. The cumulative Gas, 1.97 million cubic meter of Condensate and 1.83 MMT of Oil. The gas and condensate will be transported to the shore through existing pipelines.

The project envisages drilling of 18 Wells including 5 subsea Wells, installation of compression facilities, one nine-slot Well Head Platform, topside modification on quarter platform. The project is scheduled for completion by April 2017.
