One global industry.
One city.
One meeting place.

In November 2014, Abu Dhabi extended a warm welcome to the global oil and gas community for the 30th anniversary of the Abu Dhabi International Petroleum Exhibition and Conference (ADIPEC).

With a record 76,240 attendees to the 2014 event, ADIPEC is amongst the world's elite oil and gas events, set to take place between 9—12 November 2015.

As a platform for knowledge sharing and connectivity between the sector's brightest and most influential minds, ADIPEC is unrivalled.

And with more exhibitors and thought-leaders attending than ever before, this year's event is set to be the definitive industry showcase.

The world's new meeting point for oil and gas professionals.

ADIPEC 2014 attracted 1,868 exhibiting companies including:

& Conference

Why do exhibitors attend ADIPEC?

A global hub
Bringing together East and West

The ADIPEC 2014 conference was formally inaugurated by H.E. Dr Sultan Ahmed Al Jaber, UAE Minister of State.

The largest ever conference programme marked 4 days of thought leadership from international and regional industry professionals.

"ADIPEC enables us to bring the best and brightest minds to share the most sophisticated technologies, latest research, and expertise. This dissemination of knowledge plays a pivotal role in the development and progress of the energy sector."

H.E. Abdulla Nasser Al Suwaidi
Director General, ADNOC

Conferences

Society of Petroleum Engineers

ADIPEC has a long and proud history with the Society of Petroleum Engineers (SPE) and as per 2014, the organisers of ADIPEC, dmj events, are once again delighted to confirm that 2015 will see SPE continue to organize the ADIPEC Conference.

ADIPEC is committed to delivering value-added content that reflects the changes and challenges across the industry. New for this year, ADIPEC expands to take advantage of the venue's natural waterfront with the creation of the Offshore, Marine & Heavy Equipment zone.

The depth and breadth of ADIPEC's features, be it the Middle East Petroleum Club, the ADIPEC Awards or the Young ADIPEC and Women in Industry programmes, offers everyone with the opportunity to engage with the biggest topics facing today's industry.

"Technology and strategies are evolving, products and services developing as we speak. ADIPEC provides a platform for collaborating, sharing and partnering as we maximise our joint resources and expertise."

Mr Ali Khalifa Al Shamsi
ADIPEC 2014 Chairman Strategy
& Coordination Director ADNOC

ADIPEC is the only Oil & Gas exhibition in the Middle East, Africa and Asia Sub-Continent to dedicate an entire new waterfront section of exhibits and knowledge exchange to the offshore, marine and heavy equipment sector.

Due to unprecedented demand, ADIPEC 2015, will be extending the show floor to include an all new Hall 15 and a heavy machinery dedicated zone.

Located on the waterfront of the world class Abu Dhabi National Exhibition Centre (ADNEC), offshore marine companies now have a dedicated and specifically created area that provides water access, mooring and quayside exhibition space.

Furthermore, the Oil & Gas industry attracts some of the largest heavy equipment to support a complex

industry, be it in construction, development or ongoing maintenance. The heavy machinery & equipment zone provides an ideal location to see the best and newest in heavy equipment technologies on offer today.

The new combined zone, is positioned only 150 meters away from the main Atrium and will attract decision makers and buyers from the offshore, marine and heavy equipment sectors, providing exhibitors and visitors with a truly unique experience and showcasing platform.

Founded in 2012, the Middle East Petroleum Club (MEPC) has grown in status to become one of the most important and influential networking platforms for the Oil and Gas Industry in the Middle East.

Aimed at today's CEOs and Senior Management, content and the sharing of insights and knowledge now play a pivotal role in the value proposition that MEPC offers with dedicated country focused content from different parts of the world.

Hosted by ADNOC at the world famous Emirates Palace, the ADIPEC Awards are universally regarded as the pinnacle of success for those seeking recognition for their company's activities throughout the MENA regions' Oil and Gas industry.

Under the theme of Innovation and Excellence in the MENA region, the awards has grown since its creation in 2010 and in 2014 received over 390 submissions from 27 countries, including Colombia, Hungary, Norway, Russia and Thailand to name but a few.

Held under the Patronage of H.E. Sheikh Nahyan Mubarak Al Nahyan, Minister of Culture, Youth and Communities, the Young ADIPEC programme provides High School students aged between 14–17 with the opportunity to gain invaluable insights into the variety of careers in the Oil and Gas Industry.

Based on the key academic fields of Mathematics, Science, IT and Geography, students have the opportunity to gain hands on experiences via focused field trips to key industry establishments across the UAE, combined with an onsite edutainment experience and visits to companies taking part in the exhibition to better understand the industry's landscape.

The recruitment of women into the industry remains a key challenge, as does their empowerment once choices are made. The programme brings together leading women who are already at the pinnacle of their careers to discuss, guide and advise on the challenges and opportunities that await women through a series of debates and open dialogue.

The programme also runs throughout the year, convening on a quarterly basis where guest speakers are invited to share their insights and experiences to a discerning audience eager to learn from others as they chart their career in the industry.
