

The Hashemite Kingdom of Jordan
Ministry of Energy and Mineral Resources

Invitation for Pre-qualification Contract for Engineering, Procurement and Construction for the Jordan Photovoltaic Power Plant Project

The Government of Jordan is looking to complement Jordan's existing renewable energy capacity with a Photovoltaic Power Plant. The Jordan PV Power Plant will be located at the area of Quweira in the south part of Hashemite Kingdom of Jordan (with a capacity of 65 to 75 MW).

The Government of Jordan is seeking a company (or companies) of international standing to render engineering, procurement and construction (EPC) turnkey services required to construct and install the Jordan PV Power Plant Project including but not limited to all required engineering and design, procurement, supply and transportation, construction and installation as well as commissioning of

- the PV modules,
- the inverters,
- the MV and signal cabling system,
- the MV/HV substation and grid connection including control system (optional),
- necessary equipment to interface the project with the electrical network (optional),
- all required civil works including the construction of the foundations, access roads, internal roads, and security systems, and
- an operation and management contract for the PV Power Plant.

The Government of Jordan welcomes participation from international, Jordanian and other regional contractors.

Applications for prequalification should be submitted in clearly marked envelopes and delivered to the address below by 12:00 local time on 04th December 2014. MEMR reserves the right to accept or reject late applications.

Interested parties may obtain the prequalification documents in English on the submission of a written application to the address below:
