

I am pleased and greatly relieved to learn that, on 2nd July, 2018, the rescuers have reach all 12 youth footballers of Moo Pa (Wild Boar) Academy Football Club and their coach who were trapped inside Tham Luang caves in the Tham Luang - Khun Nam Nang Non Forest Park on 23rd June, 2018. This is good news not only for all Thai people but also for those of other nations who have been following the event.

Such operation could not been achieved unless there is the unity of effort exerted by all in a disciplined manner, supported by great knowledge, dedication and sacrifice. These people, including officials of Chiang Rai Province, police officers, military officials, medical officers, nurses, special operation teams, volunteers from all over the country, experts from abroad who travelled great distance and the mass media both from Thailand and beyond who provided fully operational support as well as the public encouragement and concern, have given the helping hands readily extended in complete disregard of self-interest.

This circumstance has clearly shown the power of unity in action, power of love and goodwill towards fellow men regardless of race and religious beliefs. In this connection, I am pleased to extend the sincerest thanks and appreciation to all concerned and wishing them every success in the coming phases of this endeavour. May they proceed in great care, assuredness and wisdom, guided by an unwavering faith so that this rescue effort may fully achieve the ultimate success as all of you have wished.

Vajiralongkorn
