

Animal Stamps

TARONGA ZOO SYDNEY

ASIAN ELEPHANT:

Elephants are one of the smartest animals on the planet and have the **LARGEST** brain of any animal.

SUN BEAR:

At 25cm, the Sun Bear's tongue is an excellent tool for trapping honey and insects from underneath the bark and inside logs.

RED PANDA:

A Red Panda's whole body is covered with fur, except for their noses - even the bottoms of their feet have fur!

SUMATRAN TIGER:

A Tiger's roar can be heard from over 3kms away!

Saturday 3 September 2022

Four Asian elephants from Thailand arrived at Taronga Zoo Sydney in November 2006. The Thai Pavillion was constructed near the elephant barn as a symbol of the close relations between Thailand and Australia. Today, there are two elephants living at the zoo: Pak Boon and Tang Mo.

Please do not feed the animals. It is unnecessary & may cause them harm.
