

WINE & FOOD FESTIVAL®

- a story full of taste -

VARNA, BULGARIA, 13- 15 April 2018

Your Excellency,

For sixth year the Bulgarian Sommeliers and Wine Connoisseurs Association and the Bulgarian Association for Culinary Culture in partnership with the Municipality of Varna and with the participation of the Ministry of Tourism of Bulgaria, is organizing the exhibition "Wine & Food Festival" - "a story full of taste" in the town of Varna, Bulgaria from 13-th to 15-th April 2018.

The festival is continuing the traditions of wine and food fairs in Varna from the 1930s and is an emblematic event for the city, part of the cultural and entertainment program for locals and guests.

During the exhibition wineries, wine importers and food producers present their products. The festival is held with the exclusive support of all national and regional tourism branch organizations of hoteliers and tour operators.

During the three days of the "Wine & Food Festival", the town of Varna is being turned into the gourmet capital of Bulgaria.

The Gourmet Zone – "the Restaurant" is an accompanying event, organized by chef Peter Yorgov and his team from the Bulgarian Association for Culinary Culture. Guest chefs are cooking original menus with natural and organic products, all prepared in front of the visitors.

We would like to invite manufacturers and exporters from your country to participate with an individual or a joint stand at the exhibition - directly or through the embassy, and we can offer a preferential price of 250 euros.

We would be honored to introduce the great products of your country to the Bulgarian and foreign visitors at the exhibition.
