TOR

1. Lawn

- Properly maintained lawns on evenly leveled ground with correctly planted grass to become “eyes feasting”. Our objective for lawn maintenance would be as follows:

- Cut the lawns grass regularly by using modern grass cutting machine.
- Properly water and maintain green grass lawns.
- Provide the required manure and fertilizers yearly so that the leveling and greenness of the lawns are maintained evenly.
- Arrange soil, sand, grass, and chemical manure, grass cutting machines, tools and other implements necessary for the maintenance of lawns.

2. Plant

- Design the gardening area by planting horticultural arrangements at all levels and maintain by proper pruning, replacing dead plants, and further add plantation if required, to improve the aesthetics of the area.

3. Seasonal Flowering Beds

- Prepare beds and/or make modifications in the existing beds in the lawns in an aesthetic manner for the plantation of decorative of seasonal flowering plants

- Provide 100 seasonal flowering pots in summer and winter (each).

4. Vegetable Garden

- Create a vegetable garden, in consultation with the Embassy, and provide seeds, seedlings, manure and other necessary arrangements.

5. Charges for Maintenance

- Provide one full time Head gardener and seven gardeners to look after and maintain the green area for a period of one year from 01.10.2022 to 30.09.2023. One supervisor will visit, once or twice in a month.

- Charges are inclusive for all the works, jobs and services. This will cover our expenditure to be incurred on the salaries / wages of the workmen, entire stores, materials such as grass cutting machines, tools and implements, pots seeds, plants, soil sand, grass, various kinds of manure, insecticides etc.
