Announcement

The updated quarantine measure for travelers entering Thailand starting from 1 October 2021

Quarantine measure for all travelers entering Thailand from China

- 1.1 All travelers may be considered to be quarantined **for no less than 7 days** if they
- (1) already vaccinated with COVID-19 vaccines that are registered or approved by WHO or the Ministry of Public Health of Thailand.
 - (2) already vaccinated with complete doses of COVID-19 vaccines according to the vaccine manufacturer's requirements.
 - (3) already vaccinated at least 14 days before arriving in Thailand.
 - (4) Regarding vaccination from 2 different vaccine manufacturers, the traveler must be vaccinated at least 2 doses from the different manufacturers and the period between each dose must comply with the first vaccine manufacturer's requirement.
- 1.2 All travelers may be considered to be quarantined **for no less than 10 days** if they
- are not vaccinated OR have been vaccinated with incomplete doses according to the vaccine manufacturer's requirement.
- 1.3 Non-vaccinated children and those quarantined with them are required to be quarantined **for no less than 10 days**.

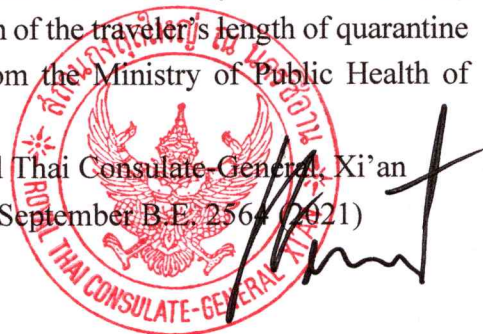

Requirement of vaccination certificate to apply for Certificate of Entry(COE)

The traveler's vaccination certificate must be **in English** when submitting to the COE online system and the final decision of the traveler's length of quarantine will be determined by the Health Control Officer from the Ministry of Public Health of Thailand upon arrival in Thailand.

For travelers who received COE approval before 28 September 2021

Travelers already issued with COEs before 28 September 2021, may use their existing certificates to enter Thailand. However, the final decision of the traveler's length of quarantine will be determined by the Health Control Officer from the Ministry of Public Health of Thailand upon arrival in Thailand.
